Professional Summary

Aspiring Systems Development Engineer with hands-on experience building distributed backend services, automating workflows, and deploying scalable infrastructure. Proficient in Python scripting, REST API development, and cloud deployment on Render and Vercel. Strong foundation in distributed systems, operating systems, and scalable software design.

Technical Skills

Languages & Scripting: Python, Java

Backend & APIs: Django, Flask, Django REST Framework, Celery, REST APIs

Databases: MySQL, SQLite, MongoDB, Redis

CI/CD & DevOps: Docker, Git, GitHub, Linux, Render, Vercel, Process Automation

Core CS: Data Structures, Algorithms, Operating Systems, DBMS, Distributed Systems

AI/ML: TensorFlow, Scikit-learn

Experience

Python Developer Intern - The Developers Arena

Dec 2025 – May 2026

- Built backend modules for a social platform using **Python and Django**.
- Automated backend workflows via REST APIs, reducing manual deployment steps.
- Optimized database queries to improve backend performance.

Python Backend Intern - Codtech IT Solutions

Sept 2024 – Oct 2024

- Built a **role-based backend system** using **Python and MySQL**.
- Optimized SQL queries to improve database efficiency.
- Automated backend processes, reducing manual workload by **40%**.

Projects

CheckMyURL | Flask, Celery, MongoDB, Redis, React

GitHub Repository

- Built and **deployed distributed infrastructure** using Flask, Celery, MongoDB Atlas, and Upstash Redis with React/Vite on Vercel.
- Developed **REST APIs** with VirusTotal/AbuseIPDB integrations, RBAC (guest/user/admin), Redis async queuing, and SSL/TLS config across 100+ URLs.

CareerCraft | Django, Django REST Framework, Gemini API

GitHub Repository

- Built an **AI-powered career platform** using Django and Gemini API for resume analysis and job recommendations.
- Designed **REST APIs** for profile analysis, resume generation, and AI-generated delivery to 50+ users.

QuickHire | Django, DRF, PostgreSQL, React

GitHub Repository

- Developed a smart service-matching platform that connects users with verified nearby professionals based on skills, location, and availability.
- Implemented real-time booking management, authentication, and location-based worker discovery.

Education

B.Tech in Artificial Intelligence, Bharath Institute of Science and Technology, Chennai

Sept 2022 – May 2026

- CGPA: 8.0 / 10
- Relevant Coursework: Data Structures, Operating Systems, DBMS, Distributed Systems

Certifications

Python Essentials 1 & 2 — Cisco (2025) | SQL and Relational Databases — IBM (2024) | Docker Essentials — IBM (2025)

Achievements & Leadership

- Organized a **Google Gemini AI Workshop** for **600+ students**.
- Solved 250+ DSA problems
